

Big Cat's Event Center Decorations Policy

We know how important decorations are for your wedding or other special event. While we will make every effort to accommodate the time you need for decorating before your event, please understand that we often have events scheduled the day before and/or the day after your event.

If there are no events scheduled in our facility on the day before your event, we can arrange for you to decorate the day before. If you are interested in decorating before the day of your event, please let us know when booking your event.

Our experience hosting events over the years has shown that the average time spent decorating before an event is two hours. We will set this time aside for you to decorate before your event. If you will require more than two hours for decorating, we will be happy to make arrangements for someone to be at the facility while you are decorating for an additional fee of \$20.00/hour.

**We will do everything we can to make sure you
have the time required to place your decorations!**
